Appl. No.10/782,387 Amdt. dated November 19, 2007 Amendment under 37 CFR 1.116 Expedited Procedure Examining Group 3722

## Amendments to the Claims:

This listing of claims will replace all prior versions, and listings of claims in the application:

	Listing of Cla	ims:		
1		1.	(currently amended) A method of attaching a hologram film to printed	
2	matter, comprising:			
3		printin	g a pattern on a substrate with UV curable ink in an uncured state;	
4		placing	g a holographic film over said pattern in said uncured state; and	
5	curing said UV curable ink with UV light;			
6		wherei	n said curing causes said holographic film to stick to said pattern without	
7	the need for an adhesive layer.			
		2	Control Who work also to the analysis of Alive and Alive and the Alive and A	
1		2.	(original) The method of claim 1 wherein the UV curable ink has	
2	2 fluorescent properties.			
1		3.	(original) The method of claim 1 wherein the UV curable ink has photo	
2	chromic prope	erties.		
1		4.	(original) The method of claim 1 wherein the UV curable ink has thermo	
2	chromic properties.			
1		5.	(original) The method of claim 1 wherein the UV curable ink has bi-	
2	chromic prope	rties.	, ,	
	1 1			
1		6.	(original) The method of claim 1 wherein the UV curable ink is a scratch-	
2	off ink.			
1		7 - 13.	(canceled)

been peeled away.

1	<ol><li>(currently amended) A security label comprising:</li></ol>		
2	a substrate;		
3	a pattern of UV cured ink on said substrate; and		
4	a holographic film over said pattern, adhering to the cured ink of said pattern as a		
5	result of curing without the need for an adhesive layer.		
1	15. (original) The security label of claim 14 wherein said UV cured ink has		
2	fluorescent properties.		
1	16. (original) The security label of claim 14 wherein said UV cured ink has		
2	photo chromic properties.		
1	17. (original) The security label of claim 14 wherein said UV cured ink has		
2	thermo chromic properties.		
1	18. (original) The security label of claim 14 wherein said UV cured ink has bi		
2	chromic properties.		
1	19. (original) The security label of claim 14 wherein said UV cured ink has		
2	low adhesion properties.		
1	20 - 24. (canceled)		
1	25. (previously presented) The method of claim 1 further comprising:		
2	peeling off the portion of the holographic film not in contact with the UV curable		
3	ink.		
1	26. (previously prsented) The security label of claim 14 wherein said		
2	hologram film is only adhered to said cured ink, other portions of said hologram film having
